

SONIBUSH

Sonishaft spare bush set

Ordering Information

NRG-SB01

DATASHEET NO.

Item	Code	Description	Qty.
1	SB03	Sonibush	1

To ensure the long term performance of the Sonishaft, it is recommended that the bushes are replaced annually or after 250 engine hours.
Sonibush re-order code SB03

The Sonishaft comes complete with a universal vibration absorbing stabilizing mount, adaptable to most vessels that is easily installed between the gearbox and the stern tube wet gland.

Compatible with both Sonishaft SS01 and SS02.
